

Name: Suprena Lohrer

Address: 1770 West Choctaw Drive

Phone: 937-206-0881

E-mail: suprenalohrer@gmail.com

Many of you might already be familiar with me, or at least with my name, as I have served as Treasurer on the CLPOA Board of Trustees for the past three years. During these three years I have been a part of many projects to help improve life here at Choctaw Lake. For example, I have worked diligently on our collections effort; worked with others to prepare a long range capital plan; and have also served on the investment committee. In all of these roles - and in other volunteer positions as well - I am proud to have worked alongside other dedicated property owners to continue to improve our community.

I am a graduate of Ohio State University with a degree in Industrial and Systems Engineering. Prior to making the decision to stay at home full time with my three children, I worked in the food manufacturing business as a Quality Systems Manager/Project Engineer. In this role, I led such cost saving measures as insourcing calibration of equipment; ensuring compliance with ISO 9001; and food safety standards I love solving problems. I enjoy the challenge of taking a problem and finding common sense, fiscally responsible solutions.

I'm once again asking for your vote to serve on the CLPOA Board of Trustees. I ask you to vote for me not only for past accomplishments, but for what I would like to strive for in the next 3 years.

- **FISCAL RESPONSIBILITY.** I want our hard-earned dollars spent on meaningful projects that add value to our community. Increased visibility of financial transactions and for the BOT to create better checks and balances. Ensure collections continue to decrease while keeping high payment rates.
- **CHOCTAW UTILITIES.** Continue to support the building of the new water plant. I want my young children drinking the highest quality water.
- **LAKE WATER QUALITY/DAM.** These items are vital to the health of our community and require long range planning to ensure we can continue to enjoy recreation on the lake. Dredging and continued maintenance will be vital for preserving a fantastic resource and treasure.

With your vote, I am confident we can work together and continue to make this the great quality neighborhood it is. A neighborhood I am happy and proud to call my home.
