My husband and I moved to Choctaw Lake from Cleveland, Ohio in August of 2007. We have three children, whom we homeschool through the 8th grade, at which point the children are transferred to London High School (go Red Raiders!). My family and I love living at Choctaw Lake and have no intention of leaving the area. I have been on the CLPOA Board since 2017.

Before children, I worked for a fortune 50 property management company as project manager, database administrator, and report writer. Since having children, I have kept myself busy homeschooling, writing the occasional freelance article, and, most recently, website developer for both Choctaw Lake and Choctaw Utilities.

Though I currently receive a small stipend for my work as website developer for Choctaw Lake, the original website development and rollout was completed pro-bono. Additional work on the website is done at a deeply discounted price as a way for me to “give back” to the community.

I’m asking you to reelect me for another three year term to the CLPOA Board of Trustees. I enjoy volunteering in the community and have a good working relationship with other board members and the CLPOA employees. I am forthright, fair-minded, and have a logical approach to problem solving. Thank you for your consideration.
